

LIVING PROOF IN A PHOTOGRAPH OF LORENZO SNOW'S OWN FAMILY THAT UTAH IS STILL THE GRAVEYARD OF THE NATION'S MORALITY.

MORMONS HAVE DROPPED THE MASK.

Their Treasonable Purpose Now Disclosed, Say Petitioners to Congress.

Washington, Jan. 7.—Petitions against the seating of Representative-elect Brigham H. Roberts, of Utah, are still being presented, although they cannot go before the Fifty-sixth Congress if sent in now.

Representative Frank G. Clarke, of the Second District of New Hampshire, introduced to-day an anti-Roberts petition which represents the church members of an entire county in his district.

The petition is as given: "Inasmuch as the Mormon Church has returned to politics and resumed away; inasmuch as the Church has decided to take charge of State schools; inasmuch as the people are being urged to 'live their religion,' which means that every Mormon shall cohabit with all his wives; inasmuch as the Mormon Church has thrown off the mask assumed for the purpose of securing Statehood for Utah and for whole treasonable purpose against this Government, is now disclosed, in defiance of the Constitution, of the religion upon which this nation is based, and of the eternal laws of God; and inasmuch as Mr. Roberts, an anti-American power, and earnestly request our Representative to oppose the seating of Mr. Roberts in the Fifty-sixth Congress.

"Resolved, That as Christian citizens we emphatically protest against this anti-Christian and anti-American power, and earnestly request our Representative to oppose the seating of Mr. Roberts in the Fifty-sixth Congress.

The Ashutol Congregational Club, of Keene, N. H., representing in its membership the Congregational churches and societies of Cheshire County, New Hampshire.

"G. H. DE BOUSE, President."

TRENTON MINISTERS PETITION CONGRESS.

Resolved, That it is the sense of this union that John J. Gardner, representative of the Second Congressional District in Congress, use his voice and vote against the seating of B. H. Roberts, Congressman-elect from Utah.—Resolutions passed by the Ministerial Union of Trenton, N. J.

Photograph of President Lorenzo Snow, of the Mormon Church, His Five Wives and Forty-nine Children—Yet He Says "Polygamous Relations in Utah Have Ceased" Since 1890.

Here is the proof that Lorenzo Snow's statement concerning "the implied understanding with the nation when Utah entered the Union as a State," or in other words that the Mormons renounced polygamy and gave up polygamous relations, IS AN ABSOLUTE FALSEHOOD. It is a photograph of Lorenzo Snow, his five wives and forty-nine of his children. The picture was taken at a family reunion HELD ONLY LAST AUGUST. It is declared that these are not all of President Snow's wives or children. There is pretty good evidence that he is the father of more than sixty children. It is said he has been married to several women since the Mormons swore to abandon polygamy. To get around the law, it is declared, the marriages were celebrated either in Mexico or in Canada. There is ample proof, even if the photograph did not show it so well, that President Snow HAS NOT CEASED POLYGAMOUS RELATIONS WITH HIS WIVES SINCE THE "MANIFESTO" or since the "understanding with the nation." The original photograph of which this is a reproduction is in the possession of the Presbyterian Board of Home Missions, and the copy was furnished to the Journal by the Rev. William R. Campbell, for twelve years a Presbyterian mission worker in Utah.

ROBERTS A MENACE TO AMERICAN HOMES

Pennsylvania Ministers Petition Congress to Refuse Him a Seat.

Lancaster, Pa., Jan. 6.—The Westminster Presbytery, comprising the Presbyterian churches of Lancaster and York counties, has unanimously adopted the following resolutions:

"Whereas, There has been elected to the House of Representatives of the United States one B. H. Roberts, from the State of Utah, who is a self-confessed polygamist; and

"Whereas, We believe the seating of a polygamist in the Congress of the United States would tend to the establishment of a hierarchy foreign to our institutions and a menace to the purity and sacredness of our American homes; we the ministers and elders of the Westminster Presbytery, being residents of the Tenth and Twelfth Congressional Districts of Pennsylvania, do hereby petition and urge our representatives in Congress to use most vigorous all measures to prevent the seating of said B. H. Roberts; and we shall have purged himself of this heinous crime against the laws of God and man."

President Snow Solemnly Declares That Polygamous Relations Have Ceased.

"POLYGAMOUS MARRIAGES IN THE MORMON CHURCHES HAVE ENTIRELY CEASED. THE IMPLIED UNDERSTANDING WITH THE NATION WHEN UTAH ENTERED THE UNION AS A STATE HAS BEEN SACREDLY OBSERVED. THERE IS NO INTENTION OR DISPOSITION ON THE PART OF THE CHURCH TO DO-LATE OR DEPART FROM IT IN THE FUTURE."

"The Church and the State are against the further contracting of polygamous associations, and there is absolutely no ground for the position taken by those who are attempting to inflame public opinion against the Latter Day Saints."

"I declare most solemnly and emphatically that the statements which are being published to the effect that the Mormon Church is encouraging and teaching polygamy are utterly untrue."—From a statement by President Lorenzo Snow, the official head of the Mormon Church.
